SUMMARY

Project Engineer and Project Coordinator with 1.5+ years of experience in manufacturing, ERP systems, bill of materials calculation, engineering drawing, project execution, resource management, ISO related documentation, and fabrication with quality standards. Skilled in leadership, assisting senior management, and developing innovative techniques using available resources.

WORK EXPERIENCE

ACE Engineering, Pune

Jan 2025 – Present

Project Engineer & Project Coordinator

Managed full project lifecycle, ensuring timely delivery and adherence to quality standards. Led ISO documentation and ERP integration, introduced innovative fabrication techniques, and collaborated with senior management on resource planning and strategic initiatives.

Trainee Engineer

Prepared bills of materials by using Engineering Drawings, assisted in scheduling and progress monitoring, supported ERP rollout with ISO compliance, and gained hands-on experience in resource management and quality assurance.

PROJECTS

Acoustic Enclosures for Global Clients

[Company Link](#)

Delivered acoustic enclosure projects for Amazon, Microsoft, Google, GMMCO Adani, and Sudhir Power Ltd. Responsibilities included:

- Reviewing customer drawings, specifications, and BOQ to prepare quotations, costing sheets, and detailed budget analysis.
- Preparing and submitting technical submittals as per customer specifications; initiating procurement and fabrication upon approval.
- Managing fabrication processes including machining, blasting, painting, and assembly of components as per design.
- Conducting Factory Acceptance Testing (FAT) and Factory Witness Testing (FWT) with customer representatives.
- Overseeing dismantling, packaging, and dispatch of enclosures to customer sites.
- Raising purchase requisitions, tracking materials, and maintaining a critical materials list to avoid delays.
- Preparing detailed project schedules and monitoring progress daily to meet customer requirements without delay.
- Coordinating with design, production, and quality teams to troubleshoot issues and ensure seamless execution.
- Supporting site commissioning, documentation handover, and post-delivery customer support.

EDUCATION

2021 - 2027	Bachelor's Degree in Mechanical Engineering at MITS College	(CGPA: 8.79/10.0)
2019 - 2021	Class 12th BIEAP Board	(CGPA: 9.05/10.0)
2018-2019	Class 10th APSSC Board	(CGPA: 9.3/10.0)

SKILLS

- **Project Management:** End-to-end project lifecycle handling, scheduling, resource allocation, daily monitoring as per customer requirements, vendor coordination, and timely delivery.
- **Technical Expertise:** ISO Documentation, ERP Systems, Bill of Materials (BOQ) preparation, Costing Budget Analysis, Fabrication Standards, Factory Acceptance Testing (FAT), Factory Witness Testing (FWT).
- **Design Tools:** AutoCAD, SolidEdge — preparing and interpreting engineering drawings, design modifications, and integration with fabrication workflows.
- **Fabrication Quality:** Machining, blasting, painting, assembly, dismantling, dispatch, compliance with specifications, and quality assurance processes.
- **Material Procurement:** Purchase requisition preparation, material tracking, critical materials listing, vendor management, and supply chain coordination.
- **Documentation Reporting:** Technical submittals, schedule preparation, progress tracking, and customer communication.
- **Productivity Tools:** MS Office Suite — Word (documentation), Excel (costing sheets, budget analysis, material tracking), PowerPoint (project presentations).
- **Collaboration:** Cross-functional teamwork with design, production, and quality teams; customer interaction during testing and commissioning; mentoring junior engineers.
