SUMMARY

Motivated Computer Science Engineering student with knowledge of Python, MySQL, Linux, and Power BI. Interested in Data Analytics and Data Visualization, with strong analytical thinking and problem-solving skills. Seeking opportunities to apply technical knowledge, gain industry experience, and contribute to data-driven decision making.

PROJECTS

1. Diabetes Prediction using Machine Learning (23/06/2025 – 18/08/2025)

Developed a machine learning model to predict the likelihood of diabetes based on patient health data. Performed data preprocessing, feature analysis, and model training using Logistic Regression and Linear Regression algorithms. Evaluated model performance and improved prediction accuracy using Python and data analysis techniques.

Skills and Tools Used: Python, Pandas, Machine Learning, Logistic Regression, Linear Regression, Data Preprocessing, Data Analysis.

2. Blinkit Sales Analysis Dashboard (12/12/2025 – 15/02/2026)

Developed an interactive sales analysis dashboard for Blinkit using Power BI to visualize and analyze business performance. Processed and cleaned sales data from Excel, created data models, and designed visualizations to track key metrics such as total sales, product categories, outlet performance, and customer trends. The dashboard helps in understanding sales patterns and supports data-driven decision making.

3. Customer Churn Analysis Dashboard — Power BI (25/05/2026 – 05/07/2026)

Developed an interactive dashboard to analyze customer churn and retention trends. Cleaned and transformed raw data using Power Query. Created DAX measures for churn rate, retention rate, and key business KPIs. Built interactive charts, slicers, and drill-through reports for dynamic analysis. Identified key churn drivers based on customer demographics, tenure, and subscription details.

Skills and Tools Used: Power BI, Microsoft Excel, Data Cleaning, Data Visualization, Dashboard Design, Data Analysis.

EDUCATION

2023 - 2027	Bachelor's Degree at MITS-Madanapalle	(CGPA: 7.15/10)
2021 - 2023	Class 12th AP IPE	(788/1000)
2020 - 2021	Class 10th AP SSC	(9.3/10)

SKILLS

Programming Languages	: Python
Databases	: MySQL
Tools	: Power BI, Microsoft Excel, Github
Operating Systems	: Linux, Windows
Data Skills	: Data Analytics, Data Visualization, Data Cleaning

CERTIFICATIONS

Data Analytics Job Simulation	Deloitte
Mastering Machine Learning: Designing Intelligent AI Systems (Mini Project)	Inspire Softech solutions
Introduction to Generative AI Studio	SimpliLearn
