SUMMARY

Motivated Backend Developer with a strong foundation in Java(Core,Advanced), Spring Boot and MySQL. Passionate about problem-solving and continually improving technical skills through hands-on projects. Interested in building scalable software solutions while continuously learning new technologies.

WORK EXPERIENCE

Tech Mahindra

Java Backend Developer - Orbit(Employee Manage System)

Nov 2025 – Present

Designed, developed, and maintained Java Spring Boot applications, building RESTful APIs and integrating third-party services. Applied dependency injection, configuration management, and environment profiling. Implemented exception handling, logging, and security with Spring Security and JWT. Designed scalable solutions with clean code, agile collaboration, Git version control, performance optimization, caching strategies, database transactions with JPA/Hibernate, and exposure to modern backend practices such as microservices, API versioning, and CI/CD pipelines.

Sitecore Developer - Kimberly Clark(E-commerce)

June 2024 – Oct 2025

Worked on CMS customization, integration of Sitecore components. Managed content, metadata, and campaigns, ensuring smooth delivery of digital assets. Configured workflows, approval processes, and personalization rules. Handled media library assets, created reusable components. Ensured consistency across multilingual sites and supported campaign launches with targeted content.

PROJECTS

MediTrack – Clinic Appointment System

[Link to View](#)

Java application to manage doctors, patients, appointments, and billing with registration, scheduling/cancellation, billing strategies, and search functionality. Applied advanced OOP concepts, Java collections/generics, exception handling, and file I/O, with Java 8 features.

RideWise – Modular Ride-Sharing System

[Link to View](#)

Java application simulating a ride-sharing platform with rider registration, ride requests, fare calculation, and status tracking. Designed with OOP and SOLID principles for low coupling and extensibility, using strategy patterns for driver matching and fare calculation.

EDUCATION

2019 - 2023	Bachelor's Degree in Computer Science at RGUKT-RKV	(CGPA : 8.9/10)
2017 - 2019	Class 12th AP IIIT	(CGPA : 9.0/10)
2016 - 2017	Class 10th AP SSC	(CGPA : 10/10)

SKILLS

Programming Languages	: Core Java, Advanced Java, My SQL, HTML/CSS
Frameworks & Tools	: Spring Boot, Git/GitHub, Postman
Concepts & Principles	: OOPS, SOLID principles
Technical Skills	: Exception Handling, Multi threading, Java 8+ Streams, Lambdas
Soft Skills	: Problem-solving, Clean Code Practices, Team Collaboration
