PROFESSIONAL SUMMARY

I am a Java Software Engineer with around 3 years of hands-on experience working on real-time backend and enterprise applications. I mainly work with Java, Spring Boot, Quarkus, and REST APIs to build reliable and secure systems. I have experience modernizing legacy applications, developing microservices, and supporting business-critical payment and document platforms. I enjoy working in Agile teams, learning continuously, and contributing to projects that create real value for users.

WORK EXPERIENCE

Software Engineer, Achala IT Solutions

Jun 2023 - Present

Project 1: TISAX Web Service – Secure Document Platform (2023 – 2024)

- Worked on building a secure subscription-based web platform used for managing confidential business documents.
- Developed backend services using Java and Spring Boot, following a microservices approach.
- Contributed to different modules such as Admin, E-commerce, Document Store, and Payment, making the system easy to maintain.
- Used AWS S3 to store documents securely and MySQL for managing application data.
- Created and maintained REST APIs for smooth communication between frontend and backend.
- Improved query performance and overall system stability through regular debugging and optimization.

Project 2: AOS – Aftersales Online System (June 2024 – Present)

- Part of a team working on the modernization of BMW aftersales systems used by internal and external users.
- Helped migrate multiple services from JSP-based applications to Angular and Quarkus, improving code quality and maintainability.
- Developed backend services using Java, Quarkus, and REST APIs.
- Supported implementation of secure payment workflows and service integrations.
- Worked closely with international teams from Germany and Sulzer, ensuring smooth coordination.
- Actively participated in Agile sprints, discussions, and regular reviews.

EDUCATION

Bachelor of Technology (Computer Science & Engineering)

RGUKT, RK Valley | 2019 – 2023 | CGPA: 9.47 / 10

Pre-University Course (PUC)

RGUKT, RK Valley | 2017 – 2019 | CGPA: 9.47 / 10

Secondary School Certificate (SSC)

Government High School, Pakala | 2016 – 2017 | CGPA: 10.0 / 10

TECHNICAL SKILLS

Programming Languages

- Java (Core Java, OOPs, Collections, Multithreading, Exception Handling)
- TypeScript

Backend Frameworks & Technologies

- Spring Boot, Spring Framework, Quarkus
- JPA, Hibernate
- RESTful Web Services, Microservices Architecture

Databases

- MySQL, PostgreSQL, MongoDB
- Database Design, CRUD Operations, Indexing, Query Optimization

Frontend Technologies

- Angular, Angular Material
- HTML, CSS, Bootstrap

DevOps, Cloud & Tools

- AWS (S3, EC2 – basic exposure)
- Docker, Kubernetes, Terraform
- Git, Argo CD, Jenkins (CI/CD – basic)
- Swagger, Postman, SonarQube

Testing & Quality

- JUnit, Mockito
- Code Quality, Static Code Analysis

Methodologies

- Agile / Scrum, SDLC
-

CORE COMPETENCIES

Java Software Engineering, Backend Development, Spring Boot, Quarkus, Microservices Architecture, RESTful APIs, SQL & NoSQL Databases, AWS Cloud Services, Docker & Kubernetes, CI/CD Pipelines, Secure Payment Systems, Agile Scrum Methodology

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge.
